**Guidelines and Timelines for Minor Allocation (2022 Admits)**

**(I) Details about Minor Programme in B Tech**

- A) A student in a particular discipline can take additional specified courses totaling 15 to 20 credits for,
- a) Minor in other disciplines where all the courses are offered by a department other than his/her parent department or
- b) Interdisciplinary Minor where courses are offered by two or more departments
- B) If he/she gets a GPA of 7.0 in these courses, then it will find a mention in their grade cards and degree certificate.
- C) A student can opt for Minors in third Semester and register for Minor Courses (Mn) from Third to Eighth Semesters. Students who have cleared all the courses of first and second semester in first attempt and have obtained a CGPA  $\geq 7$  and GPA (of common courses in the first year)  $\geq 7.0$  are eligible to register for minor courses.
- D) Allotment of minor will be based on merit list prepared on the basis of GPA of common courses in the first year.

The common courses in the first year B.Tech are as below:

|   |
|---|
| MA110, MA111, PH110, PH111, CY110, CY111, WO110, ME111, SM110 |
|---|

F) If a student who has registered for a minor programme does not become eligible for the Minor degree, then the credits for completed Minor courses shall be shown in the Grade card, but not included for CGPA calculation.

**(II) Application Process for Minor Programme in IRIS Portal**

1. The applicant has to fill the form in IRIS with his preferences **JUDICIOUSLY** for minor programme.
2. Once an applicant fills his/her preference order in the application form and submits it, the form is saved.
3. The applicant can make changes in the preference order of a saved application form until the close of application submission time deadline.
4. **The applicant has to lock the saved application form to be considered for the minor degree allotment process. The preference order cannot be changed once an application form is locked.**
5. **The application can be withdrawn even after locking it, until the close of application submission time deadline.**
6. **If any applicant has not locked the saved application, then the latest saved application of such applicant will be considered as locked by default after the close of application submission time deadline is over.**

### **(III) Minor Programmes**

#### **(a) Minor in other disciplines**

- Minor in Chemical Engineering
- Minor in Civil Engineering
- Minor in Computer Science and Engineering (Except for IT Students)
- Minor in Electrical and Electronics Engineering (Except for EC Students)
- Minor in Electronics and Communication Engineering (Except for EE Students)
- Minor in Information Technology (Except for CS and AI Students)
- Minor in Artificial Intelligence (Except for IT Students)
- Minor in Mechanical Engineering
- Minor in Metallurgical and Materials Engineering
- Minor in Mining Engineering
- Minor in Chemistry
- Minor in Mathematics
- Minor in Physics
- Minor in Management
- Minor in Economics

#### **(b) Interdisciplinary Minor**

- Minor in Machine Learning (Except for AI Students)

The Undergraduate Curriculum for 2022 which is uploaded in the NITK Website can be referred for the Regulations and Course Details governing the above Minor Programmes.

### **(IV) Seat Capacity for Minor Programmes**

Each Minor has Seat Capacity of 60.
